Docket No. 98N-1265 56 MAY 14 P2:33
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The fact that the FDA is more concerned about money than people is certainly not a new revelation. However, to attempt to limit (and obviously thereby eliminate) all specialized pharmacies that cater to specific needs is unethical and wrong. (Two more meaningless words to the FDA and pharmaceutical industry.) I will not sit back and let big money control what hormones enter my body.
